

Poster Presentation Guidelines

CMU 10-799: Diffusion & Flow Matching
Spring 2026

PDF Submission Due: Wednesday, February 25, 2026 at 11:59 PM ET
Poster Session: Thursday, February 26, 2026, 5:00 PM – 7:00 PM ET
Location: Scaife Hall 105
Submission: Gradescope <https://www.gradescope.com/courses/1207241>

Overview

The poster presentation is your chance to showcase the work you've done across HW3 and HW4 in a conference-style poster session. You'll present your specialization track research and see what your classmates have been working on.

Poster Specifications

- **Size:** 24" wide × 36" tall (portrait orientation), template can be found on the [class website](#)
- **Format:** Printed physical poster, bring it to class ready to hang
- You may bring a laptop alongside your poster for live demos, audio, or interactive visualizations, but the physical poster is a must have
- Mounting materials will be provided

What to Include

Your poster must include your **title** and **author name**. Beyond that, you have creative freedom in how you present your work. Some things you might consider including: your problem definition, approach, figures, results, comparisons, sample images, analysis, references. But all of these are optional and how you want to tell your story is up to you. The best posters are visual, concise, and tell a compelling narrative.

Presentation Format

Before the session, the class will be randomly partitioned into two groups (**Group A** and **Group B**). The partition can be found [here](#) and will also be announced on Discord.

- **Hour 1 (5:00–6:00 PM):** Group A presents at their posters. Group B walks around, asks questions, and explores.

- **Hour 2 (6:00–7:00 PM):** Group B presents at their posters. Group A walks around, asks questions, and explores.

At the end of each hour, the walking group will **vote for the best poster in each track** (Fidelity, Controllability, Speed). The top-voted poster in each track will receive an award!

Grading (15% of Final Grade)

Component	Weight	Details
Poster PDF Submission	5%	Submit your poster PDF to Gradescope by Wednesday, Feb 25 at 11:59 PM
In-Person Presentation	5%	Presenting and explaining your work at the poster session
Peer Voting	5%	Participating in voting during the hour you are walking around

Printing

- **SCS students:** You can print your poster for free through SCS poster printing services: <https://computing.cs.cmu.edu/desktop/printing-posters>. Plan ahead! **Printing can take 24–48 hours during busy periods.**
- **Non-SCS students:** Send your poster PDF to Kelly **at least two days before the poster session** and it will be printed for you. If you miss this deadline then you will have to print on your own.

GLHF! This is your chance to show off everything you've built this class. We can't wait to see your work.
